

Seminar Background

Written by ISLAC2013

The International Seminar On Islamic Jurisprudence In Contemporary Society 2013 (ISLAC 2013) is a continuity of a similar seminar held in 2011 (ISLAC 2011) as well as other academic lectures organized by the Syariah Department of the Faculty of Contemporary Islamic Studies UniSZA.

In the present post-modernism era, the Muslim world is facing various challenges and issues. These issues involve intergrity, family and kinship, assets, Islamic finance, administration, environment, conservation and even legal conflicts which need holistic approaches and solutions.

To harmonise these issues with the sacredness of Islam, approaches, solutions and resolutions taken should be based on the Syariah laws, fiqh methodology and maqasidsyar'iyah.
